## EDUCATION

**Bachelor of Computer Applications (BCA)**  
Mahakan Laal University *Expected*  
Graduation: [2026]

- Current Semester: 3rd

**Higher Secondary (12th) Presidency H.S. School, M.P. Board** *Year of Completion: [2022]*

**High School (10th) Presidency H.S. School, M.P. Board** *Year of Completion: [2020]*

## PROJECTS

**Full-Stack Developer | Personal Projects**  
Jan 2023 – Present

- **Listing Project** Developed a full-stack web application using **Node.js**, **Express**, and **MongoDB**. Implemented features like user authentication, role-based authorization, and a responsive frontend with **React.js**.
- **College Library** Created a note-sharing platform for college students to access last-year notes. Integrated a **secret code verification** system for secure uploads and deployed the project on **Render.com** 🌐.

**Frontend Developer | Personal Projects** Jan 2023 – Present

- **Ear-Buds Website** Designed and developed a visually appealing website for showcasing ear-buds using **HTML**, **CSS**, and **JavaScript**. Focused on **responsive design**, **smooth animations**, and an engaging user experience.

## PROFILE

Motivated and detail-oriented **Full-Stack Web Developer** currently pursuing a **BCA** from **Makhanlal Chaturvedi National University of Journalism and Communication Bhopal**, with hands-on experience in building and deploying full-stack projects using **Node.js**, **Express.js**, **MongoDB**, and **React.js**. Seeking an internship or entry-level position to apply my technical skills and contribute to innovative web solutions.

## SKILLS

**Full-stack developer**

**Frontend:**

- HTML5, CSS3, JavaScript, React.js, Responsive Design, Bootstrap

**Backend:**

- Node.js, Express.js, RESTful APIs, MVC Architecture

**Database:**

- MongoDB, Mongoose

**Authentication & Security:**

- JWT, OAuth, Role-Based Access Control

**DevOps & Deployment:**

- Git/GitHub, Render.com 🌐, Netlify, Heroku

## PROFESSIONAL EXPERIENCE

**Listing Project – Full-Stack Application**

- Developed a comprehensive listing management system using **Node.js**, **Express.js**, and **MongoDB**.
- Implemented **controllers** for clean and maintainable code structure in the backend.
- Integrated **user authentication** and role-based authorization with **JWT** to secure routes.
- Built a responsive frontend using **React.js**, enhancing the user interface and experience.
- Used **RESTful APIs** for dynamic data fetching and CRUD operations.

**College Library – Final Year Notes Platform**

- Designed and developed a note-sharing platform for college students using **Node.js**, **Express.js**, and **MongoDB**.
- Created a unique **secret code verification** system to control file uploads, ensuring security.
- Implemented advanced **search and filtering** capabilities based on year, semester, and subject.
- Deployed on **Render.com** 🌐 with cloud-based PDF storage, ensuring easy access and high availability.
- Improved site performance and user experience with optimized queries and a clean UI.

## INTERESTS

**Hobbies & Interests** — | Web Development, UI/UX Design, Problem Solving, Exploring New Technologies

## ACHIEVEMENTS

- Successfully deployed multiple web applications on **Render.com** 🌐 and **Netlify** with seamless functionality.
- Developed and maintained personal and collaborative projects demonstrating strong teamwork and leadership skills.

- **E-Commerce Website** Built an interactive e-commerce website with features like product display, shopping cart, and user-friendly navigation. Used **HTML**, **CSS**, and **JavaScript** to enhance the site's interactivity and ensure a seamless shopping experience across devices.
